

AccentPDIR

Pumps, Instruments and Control Solutions for the Water Treatment, Wastewater and Industrial Process Markets

AccentPDIR is a leading distributor and rep for water/wastewater and industrial equipment. We continually strive to be the best in customer service, technical assistance and delivering the right equipment on time.

Master Distributor

Liquid Metronics Incorporated (LMI) is the leading manufacturer of chemical metering pumps, controllers and accessories.

World leader in flame, fire, gas (LEL and Toxic) detection instruments and complete systems featuring EQP Control systems that comply with all current regulations.

Sensors, pumps and controllers for the water treatment industry including web based solutions.

Seametrics, Inc. "Technology with a Mission" is a designer and manufacturer of a wide variety of flow metering products.

Manufacturer of conductivity and pH instrumentation for municipal, commercial and industrial water quality control, chemical concentration testing and process control.

Electronic equipment for water treatment, pools and specialty chemical dosing. Multiple function controllers, e.g. pH, ORP and chlorine coupled with 4-20mA remote control.

Peristaltic metering pumps, rotameters and flow instrumentation for water treatment, waste water treatment, pools and industrial process.

GF Piping is a manufacturer of valves and actuation. GF Signet is a manufacturer of multi-parameter, flow and other instrumentation.

Flow measuring instruments making use of technologies to handle liquid, gas or steam. Applications in line sizes from 1/16" to over 100".

Competitively priced water monitoring panels, pump skids, enclosures, corrosion coupon racks, fluoroplastic tubing, pH buffer solutions, ORP standard & conductivity standard solutions.

Sethco manufactures corrosion resistant thermoplastic and stainless steel centrifugal pumps for filtration, recirculation and transfer applications.

Flowline has a range of tank level measurements and control solutions for challenging corrosive, ultrapure or waste type liquid media.

Contact Us

For Customer Service, To place orders, or get Tech Support anytime call Monday-Friday between 7:30am and 5:00pm EST, call toll free:

Orders for in stock items received by 3pm, Monday-Friday, will ship same day.

(888) 265-5632

Master Distributor

Full line of wet analytical products for industrial and environmental treatment systems as well as gas detection systems.

Manufactures quality pH electrodes, ORP electrodes, conductivity sensors, dissolved oxygen probes and chlorine dioxide sensors

RealTech Inc. is shining light on water quality. UV254, BOD, COD, TOC, UVT and nitrate analyzers.

Manufactures a full selection of mixers, separators, feeders, coupon racks, glycol feed systems, sample coolers and sludge traps, tanks and tank stands.

Meriam - Trusted leader in measurement and calibration solutions.

Standard Pump, Inc. manufactures barrel, container pumps and flow control systems.

Panel meter displays, flow computers and industrial wireless products

Ultrasonic flow and level instrumentation for industrial & environmental markets including level transmitters, flow meters & open channel flow meters.

Injection quills, corp stops, sample coolers, coupon racks, glycol feeders and custom systems for the water treatment industries

Handheld/Inline analytical probes and control packages for the water treatment industry.

Remote cellular monitoring and communications

Offers the widest array of innovative products for containing, transporting and storing materials as well as wastes.

Pan World offers the industry's widest variety of high quality seal free magnetic drive centrifugal pumps for industrial, commercial and consumer applications.

Horizon PTF-100®- Consistent, reliable chlorine delivery without chemical residue! Simple, compact feeder, small footprint, virtually no maintenance required.

Automatic tank gauging and leak detection systems

Systems and Equipment for liquid flow, level measurement and chemical metering in water and industrial applications
